Bo Dr. DEWEY will preach at the Christian Church this morning at the usual hour.

The Odd Fellow will leave to-morrow evening at 4 o'clock for St. Louis. COMMERCIAL COLLEGE.-We call attention to the

advertisement, under this head, in this morning's

We learn from a private despatch to a gentleman in this city, dated St. Louis, Feb. 11, that the river is now opening, and that the Sallie West

leaves there to-day for Nashville. The Wm. Garvin did not arrive until past 5 o'clock yesterday evening. She was detained at the shoals. On account of the low water, she was compelled to return last night. We hear a report that her mate, and perhaps one or two of her hands, were drowned while at the shoals.

## THE NEWS OF THE DAY IN BRIEF.

- The New York Herald, of the 4th inst., says " Not the least curious, and perhaps at the present time important, information published to-day, is the reported proceedings of the soft shell committee at Tammany Hall on Thursday evening. The features of the Nebraska Territorial bill were fully endorsed on the occasion-John Van Buren being numbered among the minority on every vote. The soft shell Young Men's Democratic Club, in their turn, met last evening, and confirmed the proceedings at old Tammany by coming out boldly and squarely in favor of Judge Douglas's bill, only two voices saying nay. Read the resolutions and the votes thereupon: they are really refreshing."

The editor of the Wilmington (N. C.) Journal cautions the public against counterfeit bills on the bank of the State of North Carolina, and on the Cape Fear Bank, many of which are in circulation. He had a counterfeit four dollar bill of the Bank of the State paid to him a few days since, the engraving of which is bad, and the paper coarse and inferior; still they are seldem detected, unless when paid into or presented at the bank. They look so old and worn as to convey the impression that they must be genuine; otherwise they could not circulate so long as their appearance would indicate.

THE COMBINED FLEETS-ENGLAND AND FRANCE,-It is stated that the combined fleet, English, French, and Turkish, amounts to sixty sail of the line; and Admiral Cory's squadron at Lisbon was, at the last dates, preparing to close the Baltic outlet to Russia in the spring. The London Dispatch says: "We are quietly increasing the strength of every regiment at home, by, it is said, four troops of compames, and Sir James Graham's visit to our arsenals was to direct the rapid augmentation of our screw steamers. Meanwhile, the Fusionists have been busy in the Paris municipality, with the view of embarraising the Emperor. The sum paid to the bakers to keep down the price of bread is £80,000 p r month, and the council of Paris have decreed Streessation. Nanoleon has overruled the decision. and there is a quarrel between the court and corporation, which latter is composed chiefly of Or-

ie railroad is making progress in committee, and that a bill will soon be reported to both Houses. It is destined to be one of the prominent questions of the session, if not the most prominent of all, and we have the best reasons for believing that it will cause some modifications of present party arrange-

- A bill increasing the salaries of the clerks of the department has passed the U.S. Senate. The salaries of \$900 and \$1000 are increased to \$1200, those of \$1200 to \$1400, and those of \$1400 to \$1000. No increase is made in salaries above \$1600. The bill has not yet passed the House.

Lynching. - An employee in the custom-house at Astoria Oregon, was suspected of having stolen \$3,000 which was missing from the safe. He was taken back of the town, a rope was put around his neck and the man suspended from a tree, in hopes of extorting a confession from him. He persisted in declaring his innocence until the parties had prepared a grave for him, and having drawn a cap over his eyes, were about to give him another hoist. This proved effectual, and the gentleman confessed the robbery, and revealed the place of concealment. The amount stolen was recovered,

THE FIRE AT TORULA, MISS. - A few days ago we had a despatch stating that the town of Tchula, Holmes county, was reported to have been destroyed by fire, and 8,000 bales of cotton consumed .-We are glad to find that this was an exaggeration. It appears that nearly 4,600 bales of cotton and two cotton sheds were burnt. Loss nearly \$200,-000. Some boys had tied a pack of fire crackers to a dog's tail, and the frightened animal ran into the sheds for protection, and thus communicated the fire to the cotton.

MR. EVERETT ON THE NEBRASKA BILL. - The Dai 14 Advertiser, of Boston, which (says the Louisville Journal) is understood to represent the opinions of Mr. Evenerr, has, we observe, taken a decided stand in opposition to Mr. Douglas' Nebraska bill. Countererrs.-The following extract is from

the Huntsville Advocate; Counterfeit fifty dollar bills on the Southern Bank of Alabama are in circulation. Not much danger of our people here being defrauded by them, as the meht of Mobile money in this region is like the visits of angels, "few and far between." But we know all about South Carolina, Georgia and Tennessee money, and are on speaking terms of friendhip with North Carolina and Kentucky bank notes. | Round freight, But Mobile money! that is in "furrin parts" to us! Cause why? We have no railroad between North Glass and Nails, d South Alabama. The members of the Legislature will please take notice, give the money to build a railroad to connect the State, or "annex" us to Tennessee! One or the other must be done.

THE ESTATE OF JUDAN TOURS,-We learn, from authority which does not permit us to doubt, that besides the munificent bequests in the will of the late Judah Touro, the residuum will also be devoted to kindred purposes of benevolence and objects of public improvement. The residuary legater, Mr. R. D Sheppard, has announced unreservedly to many of her friends that it is his purpose to appropriate the whole surplus which reverts to him for the benefit of the city of New Orleans. Among the objects HARTFORD, CONN indicated is the improvement and beautifying of Canal street, and the erection of hospitals—purpoare which continue beyond his own career the benevolent spirit which through life actuated Mr. Touro, and which will associate the name of Mr. Sheppard in popular gratitude with that of his noble triend, N. O. Pic., 31st.

THE SANDWICH ISLANDS -- Our Washington correspondent sends us intelligence of a good deal of interest in regard to the position of our Government towards the Sandwich Islands. The delay of the Administration in acting upon the advances towards a closer connection with the United States by the Sandwich Island authorities, has excited a d deal of surprise. And the peremptory refusal of President Fillmore even to communicate to Congress the propositions for annexation made by the King has never yet received any satisfactory or even plausible explanation. Our correspondent states that our Government was pledged by the Administration of Mr. Tyler through Mr. Upshur, his Secretary of State, never to seek, for American any greater advantages in the Sandwich matted per mail. Islands than were enjoyed by the subjects of Great

Britain. This is certainly a curious state of things-and we are very glad that Senator Clayton has moved a call for the correspondence, which will put all the facts connected with it before the country .-N. Y. T.mes, 3d.

REMARKS ON THE MARKET FOR THE PAST

THREE DAYS.

Our semi-weekly report closed upon a heavy Cotton mar-

ket, but the Asia's advices were before the public on Wed-nesday morning and a better demand was experienced on

that day, the sales reaching about 10,500 bales. These con-siderable sales increased the supply of bills of exchange, and further materially reduced the rates, (under the un-

usual money pressure that has prevailed for sometime past,) while at the same time they sided in producing an advance

in the rates of freight. Under these circumstances the de-mand was again checked, and the sales of Thursday were

making a total for the past three days of 17,200 bales, and for the week of 04,200 bales, taken for England, France, Spain, the Continent and the North. With respect to prices, they have again been thrown into such a state of irregularity by the causes referred to that accuracy in quotations

maney pressure has been the sole obstacle to a more exten-sive business in Cotton, and a better maintenance of prices as parties were either kept out of market or circumscribed

in their operations, by the impossibility of disposing of their Exchange to an adequate extent, even at daily declining

A gentleman in the South of Europe and Palestine, in 1830, heard so made said in the latter place in favor of JEW DAVID'S PLASTER, and of the (as he considered) miraculous cures it had performed, that he was induced to try it on his own person, for a Lung and Liver Affection, the removal of which had been the chief object of his journey, but which had resisted the genial and delicious clime.

He accordingly applied a plaster on the right side of his chest where the pain was seated, another between the shoulders, and one over the region of the liver. In the mean time he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in a few weeks his cough left him; the sallowness of his skin disappeared, his pain was removed, and his health became permanently reinstated.

The following is from Mr. Worstell, editor of the Mussillion Gazette: sillion Gazette:

I had worn a plaster upon my breast but a short time, when all pain left me, and I was enabled again to engage in the labors of the office. I would also state, that my sixter, residing in Steubenville in this State, has received much benefit from Yours, truly, JOHN P WORSTELL."
